Par vai Pret Main Functions

- Voting results will show user's perfect **political match** (in %) with political party and individual members of parliament.
- **10 – 12 voting on law projects every month during the days before the parliament votes**
- **Easy to understand texts for everyone**
- **Authorised users, ensurance for «real people» only, 1 person = 1 vote**
- **Social profile:** the platform will be able to recognise where the voter is from and even what is his/her economical & social status. This will allow to build legitimate social profile for each of the voting session.
- **Media integration**
